## Stage Markers

---

START of  
CONTROL ZONE

The Yellow Clock indicates that competitors are entering a "Control Zone" and must not enter until their due time, otherwise they be penalised for early or late arrival.

LOCATION of  
CONTROL ZONE

The Red Clock indicates the exact location of the "Stage Arrival" Control. The competitors have arrived and are ready to proceed to the START line.

LOCATION of  
START LINE

The Red Furred Flag is sited at the Stage Start Line. It is here that the stopwatch starts to record the competitor's time through the stage.

RADIO POINT

Throughout the stage, radio operators monitor the progress of competitors and report any incidents to Rally Control. Medical personnel are also fitted with Communications.

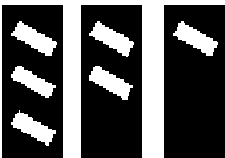

WARNING of  
Stage FLYING  
FINISH

This sign indicates that competitors are 100 metres from the "FLYING FINISH".

Stage FLYING  
FINISH

The cars are given a time they cross the FINISH LINE. The moment the competitors pass this sign, their finish time is recorded and sent down via radio link to the STOP LINE.

COUNTDOWN to  
STOP LINE

These signs are placed in reverse order (3-2-1) equally between the FLYING FINISH and STOP LINE, once competitors are within this zone, they should be slowing down to Stop at the STOP LINE.

STOP LINE

The Competitors STOP here to be given their Stage FINISH time on their competition TIME CARDS.
